Rivolver

Rivolver 16" X 42" Vari-Speed Wood Lathe

The CWI-WL650 is perfect to tackle almost any project a woodturner could imagine, whether turning small projects like pens, candle holders and pepper mills or larger furniture parts, spindles and bowls up to 16" in diameter. This solid cast iron machine weighs in at 418 pounds for excellent stability when users want to tackle a bigger project, and of course runs so smooth the headstock turning is almost unnoticeable.
