Whisky Jack Precision Tools

Developed as an affordable, yet high quality alternative to other inferior woodworking tools, Whisky Jack Precision Tools exists to provide all woodworkers with useful and innovative tools, jigs, measuring solutions & more.

All of our products feature the highest quality construction, with anodized aluminum and stainless steel components that are CNC machined and laser etched for precise accuracy.

Hobbyists, carpenters, educators, professional woodworkers and cabinetmakers will all appreciate the quality and attention to detail with every Whisky Jack Precision Tool.

Featured Product

CMT Formula 2050 Blade & Router Bit Cleaner

Most blade and bit cleaning products work with a dissolving action, using some powerful and nasty chemicals to dissolve wood residues and adhesives. CMT's safe and nontoxic Formula 2050 penetrates the microscopic cracks in the resin and attacks the bond between it and the carbide or steel surfaces. The resin releases its grip and you simply wipe it off.

Featured Product

CMT Corner Beading Router Bits

Make beautiful traditional beads and edge beads or turn old beads into new moldings with the new CMT corner beading bits with bearing. Featuring carbide-tipped cutting edges and orange PTFE non-stick coating, these bits provide excellent results on corner beads. Run the bead twice to form a complete corner bead.

Featured Product

Beaver Quick Release 9" Bench Vise

The Beaver Quick Release 9" heavy duty steel woodworking vise is made in Europe specifically for those looking for a high quality vise for school, commercial or home shop applications. This vise is made for school use but of course can be used for home made or shop built work benches. This cast iron vise offers a 9.25" jaw width with an 14" opening and is supplied with non-marring wooden plates for the jaws.
